There are many garages promoting that they stock [BMW Kent](#) . There are of course the main franchised Kent BMW dealers who sell new and used vehicles and also BMW motorbikes.

Some showrooms also have a Harley Davidson franchise at the side of their main car area. Big Motoring World Kent do not sell bikes but they do have plenty of used BMW to tempt you. In fact, that is all they sell, service, paint and MOT. They are the probably the biggest independent used BMW retailer in the UK. They won a Motor Trader Award in 2010 for being the best independent and that gives car buyers a great deal of confidence in today's market.
